

# WET

## Residencies

Wet is the only show of its kind designed specifically for residencies at resort and dayclub pools. You may engage our show on a seasonal, or permanent production. Adding synchronized swimming entertainment to your venue will bring groups poolside, and wow your guests with a performance designed to generate social media exposure and revenue for your business.

Wet 's talented performers and precise choreography can bring you a wide variety of productions, to include a retro-inspired and family friendly show or a nightlife aquatic cabaret perfect for dayclub pool parties.

Our services range from short sets on the hour during regular business hours to longer, format shows intended as a main attraction.

We can adapt our choreography to your DJ's selected music or provide our own, and we safely design our choreography with your guests' safety in mind.

We will collaborate with you as to performance themes and concepts to life. Let Wet bring the most dazzling entertainment of its kind to your pool!
